

LUMI

Compact Smart Safe

LUMI comes with 2 modes, Detection and Deposit.

- Detection brings the best convenience into the cashier to do a fast-detect of banknotes.
- Deposit provides extra security by storing banknotes to the cassette/pouch/canvas bag after Detection.

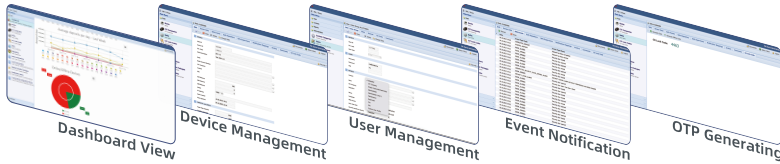

THE NEW HORIZON OF RETAIL CASH HANDLING

LUMI Compact Smart Safe is engineered to effectively accelerate and improve retail end-of-day accuracy along with banknote validation, reducing frauds and internal theft, it's all integrated in one to ease the intense cash processing.

With an option of connection to MA Cloud, completely monitors real time daily cash info and activities report in real time, which eventually leads to an optimized cash processing and reduce risks of cash shrinkage and human error.

Works with MA Cloud

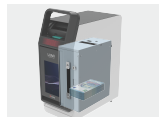

MA Cloud is capable of collecting info that helps CIT/Retailor to organize then optimize the entire procedure in a smarter way. There's even more various of data that complete the full functionality of LUMI with :

- Managements for User, Transaction, Safe, Deposit, CIT, Error
- Reports, Remote control, Preventive measures"
